In answer to your request, I wish to advise the following, based on information secured from the DAD/CD:

1. Requirements placed upon the Graphics Register are reviewed at least every six months.

2. The need for most film presentations is determined by the Graphics Register Division based on current requirements. The presentations are scheduled where the subject has general interest and every effort is made to assure maximum utilization of the single showing by the interested Offices. The very limited number of showings which are based on specific requests of individuals are approved only when properly authorized.
